Data Center

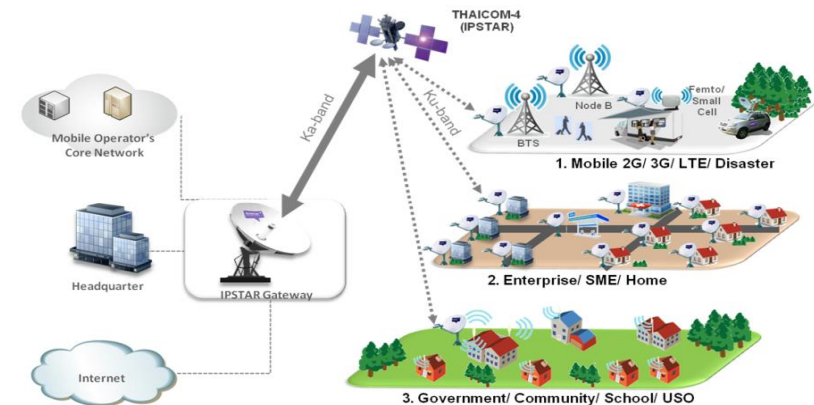

We offer complete IT Infrastructure solutions for large enterprise using solution from leading partners such as HP, Nutanix, Huawei, Oracle. Reference projects including Provincial Electricity Authority, National Telecom PCL.

Satellite Communication

I2 Enterprise provide satellite communications for rural areas and sea where other communication technologies are not available.

We are a partner of Thaicom, a leading Satellite Operator in Thailand.

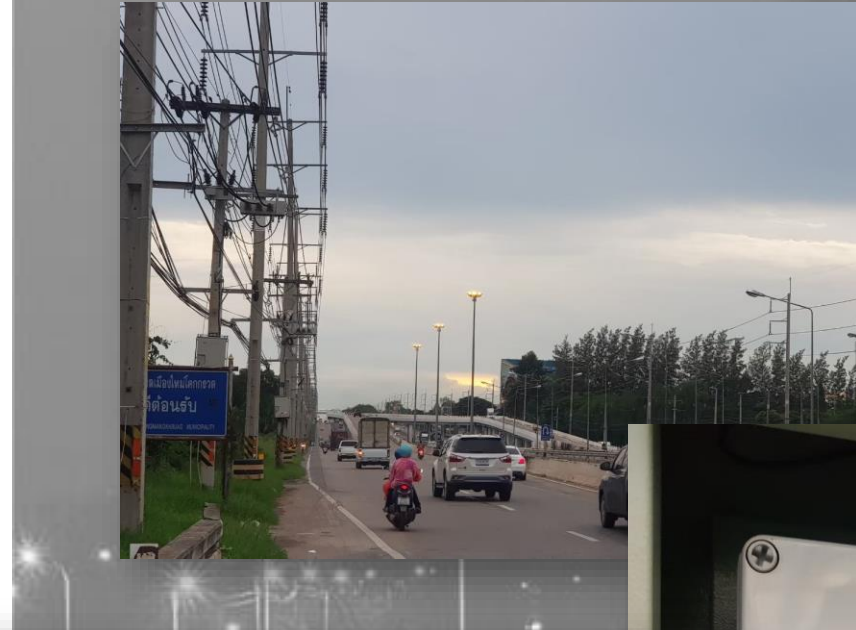

Project Reference

Energy Saving For Highway Lighting

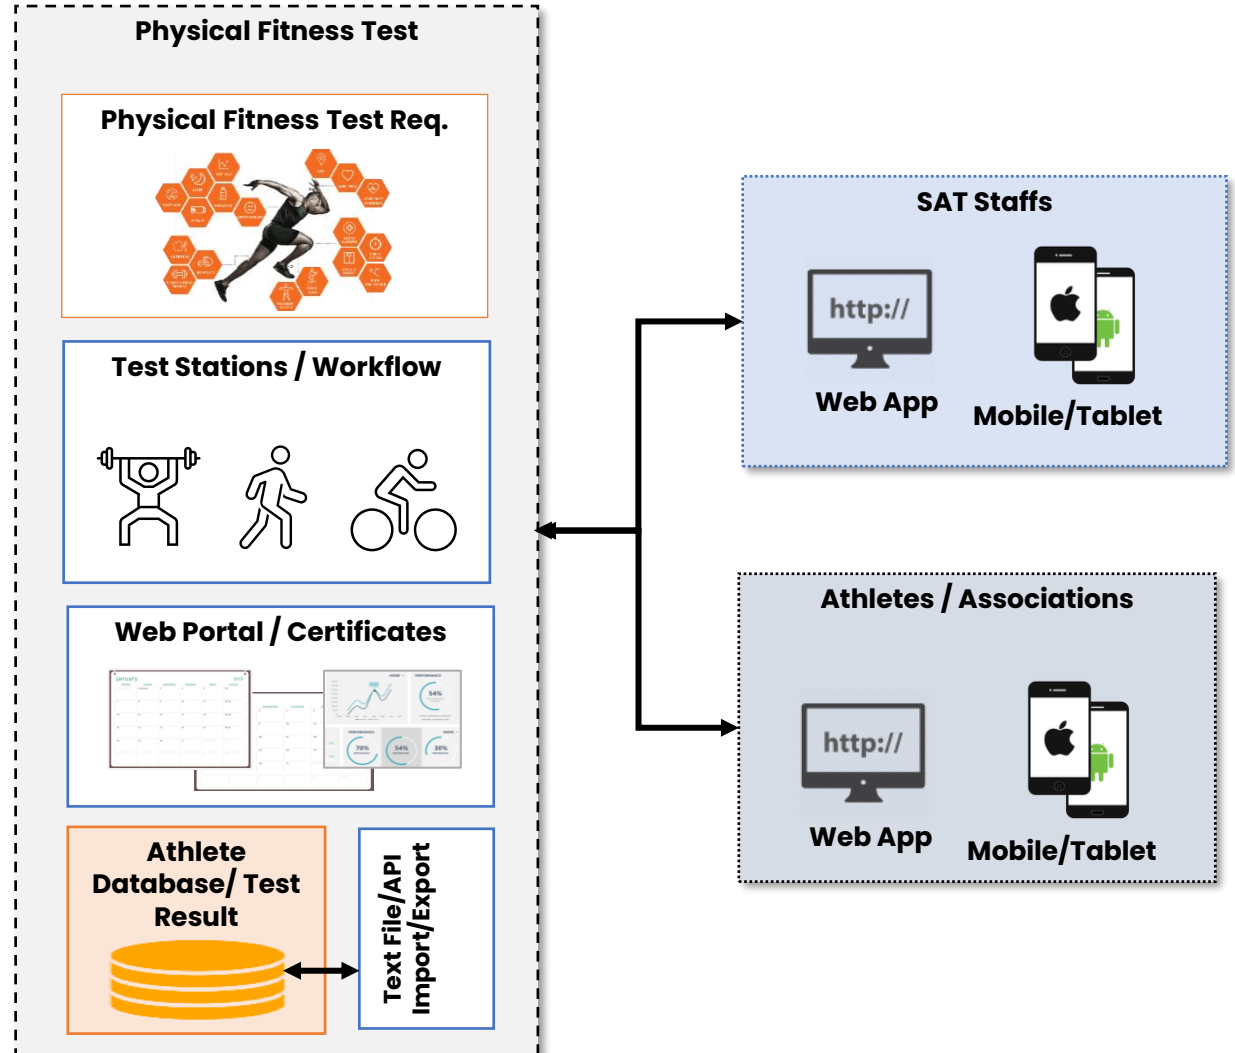

Thailand has very comprehensive highway network. Highway lighting is a major energy consumption for the country. We provide complete energy saving solution for highway lighting that could save up to 50% and still can deliver same level of safety. Reference project including Provincial Electricity Authority.

SAT Physical Fitness Test System

SAT Physical Fitness Test Center responsible for Physical Fitness Assessment Test for all athletes at national and international level of Thailand.

I2 Enterprise PCL. provided Physical Fitness Assessment Solution covered Physical Fitness Test process, reports, and maintain athlete database, standard requirements of all sports according to international sport federations and international sport events such as Olympics, Asian Games, Sea Games, etc. The system is one of Digital Transformation projects that I2 offer to government, state enterprises, and private sectors.

Project QUEUE Management Systems (KIOSK)

Project Battery Energy Storage System: BESS at Koh Samui, Suratthani, Thailand

Battery Energy Storage System, or BESS, helps improve stability of electric grid from renewable sources such as wind turbine and solar cell which can not provide constant continuous power. It stores excess energy from normal electric transmission system and discharge it when needed. The project value is 1,541.28 million bath (inc. VAT). Implementation time is 330 days and service duration is 10 years.
